Water Main Break – Garth Road

Village staff have been working to repair a water main break on Garth Road since early this morning.

Certain homes and other properties, primarily concentrated along Garth Road and nearby areas, including the Village Center and portions of the Crane-Berkely-In-Scarsdale, Overhill, Drake-Edgewood, and Sherbrooke Park neighborhoods, have been experiencing discolored water.

Water Department personnel advise that the water is safe for drinking and cooking, but should not be used for clothes washing until the discoloration has cleared.

Estimates suggest that water discoloration, if not already clear, should be clearing by early this evening. In order to expedite that process, consider allowing your water in your home or business to run for a short period of time in order to clear the lines. If it does not clear, try again later.

One building on Garth Road in Eastchester is experiencing a service interruption, and no others are anticipated for the duration of the repair, which is anticipated to take until late tonight to repair.

Persons with questions or concerns may contact the Water Department today until 5:00 PM by calling (914)-722-1138, or may contact the Police Department non-emergency line, (914) 722-1200 after hours.
