Cannabis Regulation and New Smoking Law: Join the Discussion

Join the Village Board at 6:00 PM on Tuesday, October 26, to learn about key decisions our community needs to make in response to cannabis legalization in New York. This will be our second community meeting focused on the local implications of the Marijuana Regulation and Taxation Act (MRTA).

Additionally, this meeting will include discussion of a draft Village of Scarsdale smoking law. The purpose of the new law is to provide a smoke-free environment for all persons using Village facilities or land. The proposed law will be included with the [meeting agenda](#), which will be posted on Friday, October 22.

Ahead of the meeting, Scarsdale residents are encouraged to review the [MRTA summary](#) published by the New York State Conference of Mayors. Additional information is available from the [New York State Office of Cannabis Management](#).

Consistent with our commitments to transparency, public engagement, and governmental excellence, this work session is intended to provide clarity on the issues we must consider, opportunity for our community to express their viewpoints, perspectives, and concerns, and lead to the establishment of strategies supporting advancement of the objectives developed through this collaborative process.

Please join the conversation by participating in the Village Board's cannabis regulation and new local smoking law [work session](#) on October 26, 2021, at 6:00 PM.
